

## Sydney's windy weather keeps Jims Franchisees busy.

Jim's have recently begun development of the Tree division in Sydney. Beginning in Melbourne in 1997 and building on the success of the Mowing division, the Jim's Trees division has grown to over 30 Franchisees.

Scott Reynolds has been with Jims for quite a number of years now, and is expanding his operation. Scott now has a number of trucks, chippers, trailers and staff ready to attend to trees requiring pruning or removal. Scott requires more work at the moment to keep his guys busy, and to cater for his expanding family at home.

Franchisees are trained in correct pruning techniques, chainsaw operation, dismantling trees in confined spaces and other topics such as OH+S green card and first aid.

All Jims Trees Franchisees are covered by public liability insurance.
